Motorola VE66

Saturday, November 22nd 2008 - 13:04 CET

Motorola announced the arrival of Motorola Moto VE66 cell phone with enhanced CrystalTalk audio technology, a 5 megapixel digital camera and MP3 player-like navigation for a 1-2-3 punch of great call quality, sharp pictures and an enjoyable music experience. The sleek, slider cell phone also boasts the first widgets integration on a Motorola mobile phone, which means you receive easier, more seamless access to what matters most - whether you crave sports scores, stock tickers or RSS feeds from your favourite blogs.

Motorola VE66

"The Motorola VE66 phone delivers on consumer's demand for more personalized listening and imaging experiences on a mobile phone," said Tracey Koziol, corporate vice president, Mobile Devices, Motorola. "With a diverse multi-media experience, the Motorola VE66 cell phone truly enables you to make a statement and express yourself on your terms."

Motorola CrystalTalk

The Motorola Moto VE66 cellular amplifies your conversations and helps reduce background noise with enhanced CrystalTalk technology, so virtually nothing comes between you and your calls. From more superior voice quality to personalized noise adaptation, CrystalTalk makes a noticeable difference in the clarity and intelligibility of conversations while in a noisy environment. The Motorola VE66 cell phone further enhances the audio quality with the addition of a second microphone, which helps eliminate more ambient background noise from the call.

Motorola camera phone features

The Motorola VE66 camera phone captures crisp and clear images with ease, bringing out the inner photographer in everyone. The Motorola VE66 contains a number of features that you might expect to find on a dedicated digital camera. Pressing a dedicated camera key, the Motorola Moto VE66 will quickly auto focus, activate an LED flash, if necessary, stabilize the image and reduce red eye - all to help to ensure that shots are of the highest print quality. Automatic color saturation delivers whiter whites, crisper blacks and colors true to life. Use the device's landscape feature to view photos on the

brilliant color display as desired.

Motorola Moto VE66 music phone functions

The Motorola Moto VE66 handset takes you where you want to go with the FastScroll one-touch navigation wheel which allows you to breeze through menus and content with speed and accuracy. And that's not all that's fast. The MP3 player with USB 2.0 enables high-speed access to data and downloads on your Personal Computer while the Wi-Fi connectivity makes browsing the Internet or sharing photos, audio or video files with friends a cinch. And with integrated FM radio with RDS2 - to help you "name that tune" - you can discover new music while you're in motion.

Motorola VE66 price & availability

Get access to real-time information such as weather, sports scores, stock tickers, flight information, social media and news headlines with pre-loaded and downloadable1 widgets on Motorola Moto VE66, the first widget integration on a Motorola phone. The Motorola Moto VE66 mobile phone is expected to be available Q4 2008. For actual price information and full technical specifications follow this [link](#).
